Worn with lanyard and ripcord
TWIG Neo suits especially for
front office, health care and
social workers.

- TWIG Neo worn with lanyard and ripcord is easy to carry and quick to reach
- Lanyard is equipped with magnet launching rip alarm when detached from device
- Rip alarm is available only with TWIG Neo equipped with lanyard and ripcord magnet
 - Sales code: AWP
 - Optional ID badge holder extends device use for front office and social and health care staff
 - Sales code: AWF1

- TWIG Neo worn on wrist is your safety watch always at hand
- Worn on wrist TWIG Neo is quick to activate in case of emergency
- It is ideal for laboratory workers or similar lone worker jobs where wearing a watch is not disturbing the daily duties
- Sales code: AWW

The preferred choice of
maintenance workers is to
wear TWIG Neo on belt or
pocket fastened securely with
belt clip.

- The robust belt clip is easy to click on device
- The belt clip makes TWIG Neo wearable on belt or clothing
- Fast to clip on and remove
- Sales code: AWFC (TWIG Neo), AWFCX (TWIG Neo Ex)

- With the combination of carbine hook and velcro loop wearing options are various: clipped on clothes or any other wearables
- Also the velcro loop alone is an option for fastening the device tightly
- Sales code: AWHP (plastic version), AWH (aluminium version)

TWIG Neo Ex clipped to keys, bags,
clothes or lanyards with carbine hook
provides flexibility e.g. for logistics,
home care and social workers.
